

MOTIVATION MONDAY

*This is your
Monday morning
reminder that you
are **amazing** and you
can handle **anything**.*

Congratulations to Spine Road HS

Spine Road High School hosts G8 in-school Mathematics Olympiad

Congratulations to the Spine Road HS Mathematics and school management teams for hosting the first online Grade 8 Olympiad, exposing learners to their first online competition, and giving them a taste of online learning and the competition of the future. .

The learners received usernames and passwords and were given access to a pre-test for a week prior to the Olympiad in order to familiarise themselves with the online platform.

The learners achieved great results, with the top learner achieving a 98% pass. The top five positions were filled by nine learners achieving above 88%.

All learners received certificates of participation and the top learners received gift packs and personalised certificates in recognition of their achievements.

Schools that would like to offer the in-school Mathematics Olympiad to Grade 7 and 8 learners are welcome to inbox Zaida on 072 241 2278 or via email on zmzbooks@gmail.com

The In-School Mathematics Olympiads is proudly managed and sponsored by the EduBiz as part of the Support 4 All Schools offerings
